

Let's Have a Deeper Conversation About Learning

The Portfolio & Assessment Platform

FreshGrade helps educators, parents, and students have deeper conversations about learning. Do it all with just one tool: capture evidence, give feedback, and track progression through standards and custom objectives. With FreshGrade you'll encourage students to own their learning while engaging parents at every turn.

“

FreshGrade has supported our district commitment to personalize learning for every student, fostered student ownership, and offered a rapid feedback cycle for students.

— CHRIS THOMPSON, CHIEF INFORMATION OFFICER, ELMBROOK SCHOOL DISTRICT, WISCONSIN

How it Works

FreshGrade helps teachers streamline their workflow, supporting them at every stage of the learning journey.

1. INTENTIONAL DESIGN

Choose the skill, the strategy, the task, the process, the competencies, and/or the curriculum area that will be highlighted.

2. CAPTURE LEARNING

Teachers and students can capture their learning through video, picture, and audio to populate to secure student portfolios.

3. CONTEXTUALIZE

Align documentation with state, regional and national objectives to demonstrate progression towards standards.

4. ENGAGE PARENTS & STUDENTS

Communicate and collaborate with parents and students through comments, notifications, and highlights.

5. REFLECT & GIVE FEEDBACK

Students can reflect on their progress and teachers and parents can provide feedback.

6. ASSESS & EVALUATE

Easily assess each activity using one of eight assessment tools, or use one of your own. Create reports effortlessly, saving hours of paperwork.

“

We selected FreshGrade for parent communication after consulting our school community. To our surprise, the most impactful benefit was an **increase in student pride and ownership of learning.**

— MARY DUNLEVY, PRINCIPAL, DENTON ISD, TEXAS
